

## LIBERALS DEFEATED YESTERDAY

Will Probably be No More  
Temperance Legislation  
This Session

### FOUR VOTES LACKING

To Pass the City Unit Bill—  
Author Speaks for His  
Measure.

Columbus, March 30.—For the second time, and, it is believed the last time, the liberals were defeated yesterday in their efforts to bring about an amendment to the Rose county local option law by the House of Representatives. After the loss of the Dean bill, exempting all municipalities, they rallied and endeavored to put through the Fulton bill, applying the liberty clause to cities only.

Langdon is the Republican floor leader and voted for the original Dean bill, but he announced openly that he would vote against the Fulton bill for the reason that its passage would help Governor Harmon out of the hole, and this he did not propose to do.

The result of the vote was the same as upon the Dean bill, 56 members supporting it and 60 opposing it. Langdon's accession to the "dry" column counterbalanced a loss created by the death of Representative David P. Hagerty of Hancock, who was an unflinching temperance ally.

Representative Riddle of Logan, a dry, for the purpose of clinching the defeat of the bill, moved to reconsider the vote. The motion was declared lost, the defeated wets making no opposition, and his purpose was achieved.

No other member on either side changed his vote in spite of the earnest efforts of the Representatives from the cities, and in face of the fact that a number of Democratic state officials who held aloof while the Dean bill contest was being waged, lent their support to these endeavors to convert a sufficient number of their party to pass the Fulton bill.

The temperance organization, it turned out, was superior in efficiency, and was strong enough to resist all attacks upon the solidarity of the line of defense which it established.

It seems assured that no further efforts will be made to introduce additional bills in order to achieve the result aimed at, that of preventing the rural districts from controlling the policy of municipalities contained within a county voting on prohibition.

Ernest pleas for the measure were made by the author, Representative William Duane, Fulton of Licking, and George Davidson of East Liverpool, who vainly tried to make the majority understand that the people of the cities should have the privilege of deciding the saloon question for themselves.

They argued the injustice and the unfairness of the Rose law, and united in the declaration that as a temperance measure it was a dismal failure and productive of more harm than good.

Their arguments were received by minds already made up, and, as the vote demonstrated, were absolutely wasted.

Neither Governor Harmon nor Lieutenant Governor Hugh Nichols were at the capitol yesterday while the battle was being fought to a close. The Governor went to Cincinnati Tuesday night, and Nichols did not put in an appearance at either session of the assembly.

After the preliminaries had been cleared away and the roll had shown all members present, the floor was given to Representative William Duane of Licking, the author of the bill. Explaining that it affected only the 82 cities of the state he said that when the Rose law was passed those responsible honestly thought that it would promote temperance and would be for the best interests of the people.

## TOM JOHNSON IS MUCH BETTER

Cleveland, March 30.—A startling renewal of energy came to Tom Johnson today and he demanded the magazines and newspapers, saying he would soon resume work on his autobiography. He also sent word to the waiting newspaper men that he would have them in to see him soon.

## INSANE MAN WITH REVOLVER WANTED TO SEE GOV. HARMON

Columbus, March 30.—Guy Rittenhouse, 25, subsequently pronounced insane, created a sensation in the capitol today by repeatedly demanding to see Governor Harmon at once. When arrested a revolver was found in his pocket.

## APPEALS CASE

Kansas Man Who Killed Wealthy  
Lima, O., Operator, Found  
Guilty of Second Degree  
Murder.

Independence, Kan., March 30.—Final action was expected today on an appeal for a new trial by A. A. Truskett of Caney, Kan., convicted of killing J. D. S. Neely of Lima, O., and head of the Wichita Natural Gas Company. Truskett was convicted of murder in the second degree by a jury's verdict returned late last night. The jurors had deliberated more than 24 hours. Pending arguments on his application for a new trial, Truskett, who is 70 years old, was committed to the custody of the sheriff.

## STRANDED IN A HEAVY FOG

London, March 30.—The channel steamer Pas de Calais, which recently collided with and sank the French submarine Pluviose, stranded on the French coast in a heavy fog today. Her 50 passengers were landed safely but badly frightened. The pilot of the Pas de Calais thought he was steering into the harbor when he ran aground.

## WOMAN'S THREAT DEFEATED BILL

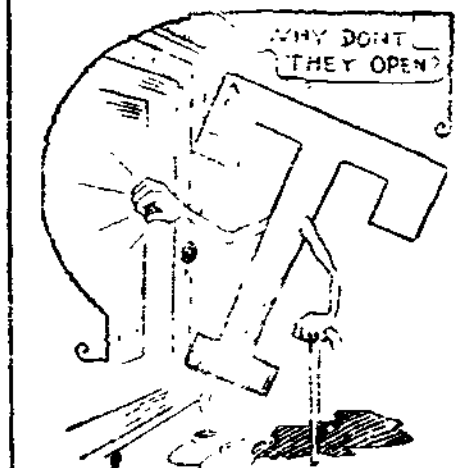

St. Paul, Minn., March 30.—The threat of a suffragette to "pull the nose" of State Senator Dues is today partially blamed for the defeat of the woman's suffrage bill in the senate yesterday. In the midst of a heated campaign conducted by the suffragist lobby Senator Dues who opposed the measure became involved in an altercation with several of them. One declared that the "senator's nose should be pulled."

## INDICTMENTS ARE ORDERED DISMISSED

Washington, March 30.—The anti-bucket shop law was today declared unconstitutional in a sweeping decision handed by Justice Wright of the District of Columbia Supreme court. Indictments against thirteen alleged bucket shop promoters in Washington, Baltimore and Chicago were ordered dismissed. It sustained by the higher court this decision will frustrate the federal campaign against bucket shop gambling.

**JAPAN RATIFIES TREATY.**  
Tokio, March 30.—The privy council has ratified the treaty of commerce and navigation with the United States. The signatory exchange will be made on April 4.

## CERTAIN NEW YORK BANKS KEEP "YELLOW DOG" FUND

New York, March 30.—That certain New York banks maintain a "yellow dog" fund which is used to bribe persons in a position to bring new business to the banks will probably be developed by the grand jury investigation into the wrecking of the Carnegie Trust company. It has already been shown that this institution had a "yellow dog" fund totaling \$1,500,000. The former officials of the Carnegie and Northern banks allege they are being made scapegoats and will tell the grand jury how banking is conducted in New York. It is intimated that a legislative investigation will be brought about by their revelation and conditions as rotten as those shown up by the insurance people will be disclosed.

## MUSHY NOTES

TO "LITTLE SWEETHEART" THE  
CAUSE OF \$50,000 BREACH  
OF PROMISE SUIT.

Physician Who Conducts a Class at  
the University of Chicago Gets  
in Bad.

Chicago, March 30.—Love letters alleged to have been written by Dr. Daniel B. Hayden to Miss Mary Loneran, daughter of prominent parents living in Kenwood, were made public in connection with the \$50,000 breach of promise suit which the young woman has instituted against the physician.

The two, according to the suit, fell in love several years ago at Manhattan, Ill., where both then lived. Attorney Dolan, representing Miss Loneran, showed these letters and extracts from letters, which he says the physician wrote to his client: "Little Sweetheart: Just a line or two to remind my darling that I love her more than my life. You are my darling, aren't you? And nothing can separate us permanently. I am never quite so lonely as just after leaving you. It is just midnight and the lights of Chicago are just fading away from my sight. I send my whole love and many kisses to you. Your desperate Daniel."

"Sweetest Love: Am too tired to think of anything except how I love you. Particularly crazy about you today. Be happy and that will make me happy. Your humble Daniel."

During the courting a Miss Julia Howard appeared upon the scene. Without the knowledge of Miss Loneran she was married to Dr. Hayden at Farmer City, Ill., on Oct. 5, 1910, the complaint sets forth.

Dr. Hayden conducts a class at the University of Chicago.

## FOUND GUILTY OF MANSLAUGHTER

Alton, O., March 30.—Earl C. Sprinkle, 25, an autoist who ran down and killed two high school girls Nov. 4, was today found guilty of manslaughter after the jury had been out 17 hours.

**SOUTHERN JURIST DEAD.**  
Newberry, S. C., March 30.—Former Chief Justice John Young Pope of the state supreme court died yesterday afternoon, aged 70.

## REBELS ARE WILLING TO NEGOTIATE

Madero's Brother Says  
There Will be No Cessation of Hostilities

ONLY ROUTINE DRILLS  
Are Occurring At Uncle Sam's  
Maneuver Camp—Airships  
Enroute.

San Antonio, Texas, March 30.—San Antonio is now the provisional "Capital of Mexico" for the revolutionists. While Francisco Madero, father of the provisional president, and his brother, remain here, all manifestos other than those issued from the field by Madero himself will come from here. If peace overtures are made by the Mexican government, they will have to be made to the Madero contingents here.

The local junta is being largely governed by the advice of Madero. Advances were sent out today to the revolutionary bands between Monterey and Saltillo warning them that under no circumstances must the journey of Francisco Leon de la Barra, the new Mexican minister of foreign affairs be interrupted in any way. The rebel sympathizers here are anxious for him to reach the City of Mexico, for they believe that immediately thereafter peace negotiations will be taken up.

It is not possible that De la Barra and Madero will have a conference today. Madero said that there was no occasion for him meeting De la Barra, as all the necessary communications were already in the hands of Limantour.

Discussing the proposed peace conference Gustavo Madero, brother of the provisional president, speaking for the rebel junta, said: "Neither the fear of intervention by other powers nor the promises and arguments of commissioners to us from Mexico have ever caused the revolutionists to falter in their determination to secure for their country a complete political regeneration before they agree to peace."

"It is true our party is willing to negotiate for peace, but it must be distinctly and absolutely understood that there is no cessation of hostilities at this time and, furthermore, there will be none until final terms have been agreed upon of such character as to be thoroughly acceptable in every way, not only to those members of our party who are in the United States, but also to the leaders who are in the field."

Minister of Finance Limantour is credited with the following statement in an interview at Mexico City: "If those gentlemen in San Antonio really desire peace they should begin by not talking so much. The government has its own plans, and will carry them out regardless of the utterances of any faction. The government will not yield to the revolutionary party as such, but it will do its utmost to fully meet the demands of public opinion—the public opinion of those whose hands are not raised against the nation."

"Much study has been given by the administration to the necessities of the occasion, and when I returned from Europe, where I had learned something of the conditions and had discussed the matters involved with the president, leaving before him my observations and conclusions, which coincided with his. The result of these conferences was outlined and submitted to the new cabinet, and accepted by that body."

"The president will very directly and concisely outline this policy in his message to congress, and I feel that it will be in such form and cover such points as to convince the nation of the government's sincere desire to carry to a culmination the reforms and progressive measures generally that have been adequately outlined in the press. The president's declaration will be very positive."

At the maneuver camp activity was confined to routine drills. (Continued on Page 10, Col. 4.)

**FRENCH PEOPLE  
FAVOR TREATY**

Paris, March 30.—The moment the Anglo-American arbitration committee is completed a similar treaty between the United States and France will be put through. The sentiment of the French people is solidly in favor of such action.

**BOTH DYING**  
From Revolver Shots Inflicted By  
Wife, Who Objected To His  
Band Obeying Out All  
Night.

New York, March 30.—Following a struggle for possession of a revolver in their bedroom, Jacob Newman, 40, and his wife Lena, 30, will probably die. A man sleeping in an adjoining room told the police that Newman came home at 5 this morning and his wife upbraided him for staying out all night, finally getting his revolver and ordering Newman out. Then followed a shot and a cry from the man and a moment later a second shot, followed by a woman's scream. The police found the couple unconscious on the floor.

If you own a vacant lot in the city or at the outskirts of town and are willing to let some man use it this season for garden purposes, telephone to the business office of the Advocate.

If you want to reduce your cost of living and are willing to cultivate a "garden patch" this season, telephone to this office, phone 61, and the Advocate will be glad to put you in touch with the owner of a vacant lot, providing the lots are offered.

The Advocate now has five good lots offered for free use. Two of these lots are near the Hixley plant, one near the Wehring foundry and two are in the Amherst Addition. Can you use one of them?

Lots centrally located are especially desired. If you have such property that is not producing immediate returns, perhaps you will be willing to allow somebody to cultivate it. If you have a lot or want a lot, please telephone to or call at the Advocate office.

# LETTERS FROM SPAIN BY MISS SPRAGUE

Miss Mary A. Sprague of North First street, who has been in Switzerland and other sections of Europe for several months, has written for the Advocate a delightful letter telling of her visit to Spain. This letter comes in response to a request from this newspaper.

For convenience Miss Sprague's letter has been divided into three parts, the first of which will appear in tomorrow's issue, the second and third portions following closely.

Miss Sprague's many personal friends will follow this series with much interest, while the general public will also find the letters to be both entertaining and instructive.

**A Fierce Night Alarm**  
is the hoarse, startling cough of a child, suddenly attacked by croup. Often it aroused Lewis Chamblin of Manchester, O., (R. R. No. 2) for their four children were greatly subject to croup. "Sometimes in severe attacks," he wrote, "we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup and for coughs, colds, or any throat or lung trouble." So do thousands of others. So may you. # UNION MARKET WILL MOVE TO NEW LOCATION

Col. J. F. Ryan, who for years has been at the head of the Union Market in this city as its manager, has just completed a deal whereby he has purchased the well known grocery of W. Priest, at 25 South Side Square. The deal carries with it all the fine stock of groceries and the lease of the room. The work of invoicing the stock of goods will commence on Monday morning, but the store will be kept open for business as usual. It is Col. Ryan's intention to move the Union Market to his new location, and he proposes having a grand opening and birthday party Monday, April 17. He has occupied his present location for five years. Colonel Ryan has hosts of friends among all classes in Newark, and no doubt will do a largely increased business in his new location.

# REBELS

(Continued from Page 1.)

sages from Leon Springs were to the effect that General F. A. Smith, commanding the First brigade, has broken camp and was en route to Ft. Sam Houston. He has been there several days exercising a number of maneuvers.

It is probable the Second brigade will be ordered out at once to replace the soldiers at the Leon Springs maneuver grounds. Notice of the promotion of Major George H. Morgan, acting chief of staff of the Department of Texas, to be lieutenant colonel, has been received. He will probably be assigned to the command of one of the squadrons of the Third cavalry.

Lieutenant Feltz made one short flight yesterday. No extended maneuvers with the aeroplane will be undertaken until the arrival in camp of the three machines now en route.

His wife and two children will come later when he has secured a residence. Mr. Spring is a genial, bright young business man and comes to this city being highly recommended. Mr. King and family leaves for his new position followed by the best wishes of a large circle of friends who sincerely regret their departure from this city.

# SNOW STORM STRIKES CITY

Thursday was a typical March day in every sense of the word, and high winds, rain and snow were the order. For several hours during the middle part of the day, the wind, which came from the west, blew with great force and was accompanied by a gale of snow, making things very uncomfortable for those who were obliged to be outdoors. The storm continued until about 1:30 o'clock Thursday afternoon, when the wind died out and the storm clouds broke and the sun shone, but did not last long, as it soon clouded up again.

## DOWNWARD COURSE.

Fast Being Realized by Newark People.

A little backache at first. Daily increasing till the back is lame and weak. Urinary disorders quickly follow: Diabetes and finally Bright's disease.

This is the downward course of kidney ills. Don't take this course. Newark residents should profit by the following experience.

Mrs. Martha V. Horn, Mechanic street, Utica, Ohio, says: "I can highly recommend Doan's Kidney Pills, for I have tested them to my entire satisfaction. For a year or so I suffered a great deal from a soreness and weakness across the small of my back and I always felt languid and tired. Some of the remedies I tried gave me temporary relief but Doan's Kidney Pills were the first one that brought me lasting benefit. After I had used two and a half boxes, I considered myself cured. I publicly recommended Doan's Kidney Pills at that time and am now glad to say that during the three years that have since passed, I have had but little trouble from my kidneys."

For sale by all dealers. Price 50 cents. Foster-McIlhenny Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### What The Kidneys Are

#### Weakened by Over-Work

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

When writing, be sure and mention this paper. It is a day after tomorrow size bottle for sale at all drug stores.

## Heart and Home Talks

Practical Housekeeping.

### A Man's Freedom in His Home.

AM going to get a home of my own," said a man, "where if I want to track mud all over the house, I can do so, or where if I want to put my feet on the mantel, I can do so, or smoke as much as I please."

He was a bachelor—but he lived at home! Many a woman will sniff and say, "A pretty mess his home would be in a little while."

But after all, hasn't a man a right to some freedom in his home?

Many women run the home entirely to suit themselves. They may look the things their husbands like, see that their husband's clothes are mended and in their places; but everything else about the house is as they want it, and the husbands are supposed to acquiesce in this arrangement. If I were married to a man who liked mud, it seems to me I would, once a week at least, let him have an orgy of mud. As soon as he found he could luxuriate in mud, he probably wouldn't want it. It is not the mud that he hankers for. It is the restriction against mud that he objects to. If nothing were said, he would probably view with as much compunction as the orderly housewife, the muddy tracks on the carpet. But as soon as he is nagged about them, his soul cleaves to—not the muddy tracks particularly, but to the right to do as he pleases.

This is the point that causes so much trouble in many a home. The wife is thinking of the concrete thing—the mud, the smoke, the cigar ashes; the husband is tenaciously holding out for the abstract—his freedom. Neither realizes that the other has a different point of view. Mary can't understand why John will thoughtlessly make her so much work. She concludes he doesn't love her any more. John is irritated that Mary nags and scolds and treats him as if he were a small boy. And so the friction grows.

And, after all, hasn't a man as much right to absolute freedom in his own home as has the wife? That is what he has a home for, that he may be at ease and comfortable in it. Shouldn't he do it as he pleases without criticism or cavi? There is such a thing as being too good a housekeeper. To make the man of the house uncomfortable because of a little mud, a few cigar ashes, or trifles of this sort, is to take from him the home freedom which is half of what home is. To make him feel that the minute he enters he is bound, restricted, that he can't do this or that, is to drive him from home.

Let him do as he pleases. If left to himself, the average man will no more really injure the neatness or cleanliness of the home than will the housewife. In essentials, it is as dear to him as to her. But the minute shackles are put on him, he protests. And in the spirit of irritation, he is apt to go further in the matter of disorder than he ever would if absolute freedom in the home were his.

# Danderine

Grows Hair and we can PROVE IT!

DANDERINE is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow abundantly, long and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

A lady from St. Paul writes in substance, as follows: "When I first used Danderine I was very bald. I used it for a few weeks and my hair began to grow. I am now very thick and healthy. Another from Newark, N. J., writes: 'I have used Danderine for several months and my hair is now growing very thick and healthy. I am now very thick and healthy.'"

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

Danderine enjoys a greater sale than any other preparation regardless of kind or brand, and it has a much greater sale than all of the other hair preparations in the world combined.

Free Trial. To the lady who writes in substance as follows: "When I first used Danderine I was very bald. I used it for a few weeks and my hair began to grow. I am now very thick and healthy. Another from Newark, N. J., writes: 'I have used Danderine for several months and my hair is now growing very thick and healthy. I am now very thick and healthy.'"

KNOWLTON DANDERINE CO. Chicago, Ill.

April 19 at the home of Mrs. Howard in Clinton street.

Mrs. D. M. Miller and daughter, Miss Lillian Miller, have issued cards reading for a euchre party on Monday afternoon at their home in North Fourth street.

Tuesday was the birthday anniversary of Mr. Henry Waite of the American Bottle Company. In the evening he was called on by a party of his friends who wished him many happy returns of the day and presented him with a traveling bag.

Those present were: Messrs. Charles McManis, Harry Seitz, Frank Bournier, William Downey, George E. Smith, E. S. Franklin, Clarence Dille, James Rodgers, David A. Murphy, John Shindler, William Giffin, Carl Dayton, Martin Bournier, Frank Fitzgibbon, Wayne Baird, Murry Cummins, George Stickie, Clarence Martin, Louis Pine, Jesse Warthen.

The evening was passed playing cards and at 11:30 a. m. an elegant supper was served by Mrs. Waite, assisted by Miss Nellie Jones and Mrs. Pettit. At a late hour the guests departed, wishing Harry many more happy birthday anniversaries.

The No Name Pedro club was delightfully entertained at the home of Mrs. Ben Rutherford in Fulton avenue on Thursday afternoon. The souvenirs for the game were awarded to Mrs. William Davis and Mrs. Lafe Green. Dainty refreshments were served the members and following guests: Mrs. Lillie McLaughlin, Mrs. John Brown, Mrs. J. J. Hartsorn. The next meeting will be at the home of Mrs. George Schultz in North Pine street April 11, street April 11.

A very pleasant surprise was tendered to Mrs. Lydia Lott at her home in South Second street, it being her eighty-second birthday anniversary. ## TO BE MARRIED IN CHICAGO

Mr. Waldo B. Weber, a popular young man who has been working on the installation of the new automatic telephone for the Newark Telephone Company, obtained leave of absence, saying that he was called to Chicago on business and will leave for the Windy City Friday night. Friends in this city, however, received a telegram from Chicago, notifying them that Mr. Weber would be married to a young lady of that city Sunday afternoon at 3 o'clock. Now Mr. Weber is kept busy telling his side of the story.

## TOMORROW'S MENU

BREAKFAST. Fruit Sugar and Cream Cereal Hashed Brown Potatoes Flannel Cakes Coffee

LUNCH. Omelet with Pickled Oysters Soft Molasses Gingerbread Cocoa

DINNER. Tomato Cream Soup Broiled Fish Mashed Potatoes Asparagus on Toast French Dressing Lettuce Wafers Cheese Lemon Jelly with Cream Coffee

Recipes for March 31, 1911. Pickled Oysters. This is a good time to prepare pickled oysters in quantity for picnics or as a relish later in the season. Pick over two hundred good sized ones. Wash and drain them, then place in a saucepan with the strained liquor and bring to the boiling point. Dip out the oysters, rinse them in cold water, drain and set aside. Skim and boil the liquor for five minutes, add one pint of vinegar, four dried peppers, two dozen cloves, four dozen pepper-corns, two inches of stick cinnamon, and six blades of mace; then boil for five minutes longer. Put the oysters in two quart glass jars, pour over them the boiling liquid and seal.

Soft Molasses Gingerbread. To one cupful of molasses add one teaspoonful of ginger a half teaspoonful of cinnamon, quarter of a teaspoonful of cloves, quarter of a teaspoonful of salt, three tablespoonfuls of melted butter or other shortening and one teaspoonful of baking soda. Stir well together, add one-half cupful of boiling water and, as quickly as mixed, two cupfuls of sifted heavy flour. Pour the batter one inch deep in a well greased pan and bake in a quick oven.

The Quickest, Simplest Cough Cure Easily and Cheaply Made at Home. Saves You \$2.

This recipe makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50. Simple as it is, it usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, sore lungs, asthma, throat troubles, etc. Mix one pint of granulated sugar with ½ pint of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (50 cents' worth) in a pint bottle and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best known remedial agents for the throat membranes. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in gualic acid and all the other natural healing elements. Other preparations will not work in this formula. The prompt results from this recipe have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

## TEAMS AT WORK HAULING RUBBISH FROM STREETS

Owing to the condition of the weather, only 23 teams reported for duty Thursday morning. Because of the great accumulation of rubbish in every section of the city, in response to the Board of Trade's appeal to "clean up," the teamsters were able to cover only a portion of the ground Thursday.

The Health Department, headed by Dr. Knapp, is now getting busy and will order certain places that have not been cleaned to be cleared of rubbish and trash at once.

Supt. Sinkins will direct each teacher to give a short talk to the pupils at the opening of school next Monday on the importance of the clean-up and each pupil will be asked to endeavor to see that the places that have been overlooked are given prompt attention. Through the pupils and others the health depart-

RECIPROCITY AND  
THE FARMER'S HOME.

The representatives of the State  
Department, in negotiating the Rec-  
iprocity Agreement with Canada,  
sought to do something in the way of  
cheapening the cost of the farmer's  
home. Mr. Edward Hines, the rep-  
resentative of the lumber interests, when  
he appeared before the Senate Finance  
Committee, said he did not think there  
was any necessity for cheaper lumber.  
The contrary view was taken by the  
American negotiators. Lumber fur-  
nishes the most important commodity  
of the articles which are exempted  
from duty, or have the duties lowered,  
by the United States. Rough lumber,  
which is made, generally, from the  
course, the most important material in  
home building. The United States  
buys 15 million dollars per annum and  
rewards of this class of lumber from  
Canada, and the duties rendered to the  
American people amount to more than

UNCLE WALT  
The Poet Philosopher

A dollar will do more good to a man who is down and out than the  
pandemic plagues that a generous man can sport. The world beaten  
sport comes by, and says he is out of luck and hands  
me a souful sigh, and asks for a silver back. And O,  
how I hate to give, before I hand out the cash, to show  
that I'm a peacah at making a moral hash! Of precepts  
I have a store, of maxims and mottoes I pass them along till sore  
and strained are my joyous jaws. And rather give good advice than go  
to a game of ball, or swallow a lemon ice, or play with a rubber ball.  
I rather wind up my tongue, and then let the same run down, than  
dance with the daintiest young girl graduate in the town. And so  
when I meet a gent who's needing a shirt and tie, I hand him a Lincoln  
cent and preach for quite a while. I've plattitudes by the peck, and  
one that will quiet strifes I'm loaded clear to the neck with lessons and  
rules of life. I've handages, salves and splints for morals that lamely  
and rather give helpful hints than go to a minstrel show.

nails.

When it comes to roofing, the farmer  
gets the benefit, whether he uses shingles,  
slates or manufactures of asbes-  
tos. On all these articles the reduc-  
tions are heavy and especially on  
shingles.

When it comes to laying the founda-  
tion of his home, there is also a material  
reduction made on all classes of  
building stone. If cement enters into  
the construction, as it does in many  
mores, he gets the further benefit of  
asphaltum, or plaster of rock, which is  
made free. Gypsum now enters very  
largely not only into stucco work, but  
into ordinary Portland cement, which  
is used extensively.

When the farmer comes to paint his  
house, he has the further benefit of re-  
duced duty on oxides of iron, which  
enters into paints.

China has given Russia new prom-  
ises, which cost nothing as long as they  
are not kept.

Still more immigrants from Holland  
are coming in, every one of them on  
the way to a farm, and with means  
to till it.

In a couple of months the crops of  
Texas will be ripe for gathering, when  
the troops at San Antonio may serve  
in any scarcity of harvest hands.

March has an evil reputation for  
windiness, but we are inclined to think  
that the month now drawing to a well-  
come close has established a new re-  
cord as a blowhard.

A doorway is no doorway if the door  
be locked and the key is out of reach  
when most needed. There may be mi-  
nor reasons for keeping people out or  
keeping them in, but they are of slight  
account when compared with the great  
emergency reason of free exit in time.

Attacks School Principal.  
A severe attack on school principal,  
Chas. B. Allen, of Sylvania, Ga.,  
is thus told by him. "For more than  
three years," he writes, "I suffered  
indefinable torture from rheum-  
ism, liver and stomach trouble, and  
diseased kidneys. All remedies failed  
till I used Electric Bitters, but four  
bottles of this wonderful remedy cured  
me completely." Such results are  
common. Thousands bless them for  
curing stomach trouble, female com-  
plaints, kidney disorders, biliousness,  
and for new health and vigor. Try  
them. Only 50c. at F. D. Hall's.

spending his spring vacation with  
his parents.

One of the most enjoyable events  
of the week was the surprise per-  
formed on Mr. Frank Fulk at his  
home in Newark street Sunday eve-  
ning. It being his birthday, an-  
niversary, when about 50 of his  
friends gathered to remind him of  
the event. Dainty refreshments  
were served during the evening. At  
about half the guests departed, all  
wishing Mr. Fulk many more happy  
birthdays.

Miss Anna Long and Sister  
attended the baseball game Satur-  
day night at Thornville.

Mr. John Wickers of Hebron spent  
Sunday at his country home north  
of town.

Mr. John Prince of Pleasanton called  
Sunday on Mr. Marion Bumer,  
who has been quite ill, but is bet-

umbus Sunday on account of the  
serious illness of her sister, Mrs. Frank

SMOOTH CAUCUS

Champ Clark For Speaker Will  
Go Through Sailing.

FRICION OVER COMMITTEES

Objection to Fitzgerald and Other  
Cannon Supporters Getting Best  
Chairmanships—The New Speaker  
Refuses to Use an Auto—Army of  
Democrats Looking For Jobs and  
Army of Republicans Losing Them.

By ARTHUR W. DUNN.  
Washington, March 26.—[Special.]—  
April 1 does not scare the Democrats,  
and they will go ahead and hold their  
caucus on that day despite fun poked  
at them by members of the minority  
party. "Minority party" applied to the  
Republicans sounds strange, for it is  
the first time in sixteen years that  
such has been the case. And Champ  
Clark is the real nominee for speaker,  
a nomination which means something.  
The nominations by the Democrats  
heretofore have been rather empty  
honors, carrying minority leadership,  
to be sure, but that is not a great  
plum in the house, nothing like the  
speakership, even though the speaker  
has now been shorn of much power.

Not All Harmony.  
The selection of Champ Clark for  
speaker will be the most harmonious  
feature of the Democratic caucus. There  
is a deal of dissatisfaction about the  
makeup of the committees, more than  
would have been the case if the se-  
lections had been made by the speak-  
er. The progressive or radical Demo-  
crats do not like to see a dozen mem-  
bers who voted to save Cannon two  
years ago given good committee as-  
signments, several of them important  
chairmanships. Then the idea of fol-  
lowing seniority, indorsing the selec-  
tions made by Cannon during the last  
eight years, is also galling to those who  
would like to see changes which would  
show real Democratic independence  
and advancement. There is severe  
criticism because Fitzgerald has been  
made chairman of appropriations.  
Two years ago, outside of the twenty-  
three who followed him, there was  
scarcely a Democrat in the house who  
would speak to him. That was when  
he had led away the twenty-three  
from Champ Clark's leadership and  
saved Cannon. Moon of Tennessee is  
one of the twenty-three whose good  
chairmanship is not relished by the  
faithful party men. Adamson of  
Georgia has always stood by the party,  
but the radical Democrats do not  
think he ought to be at the head of  
the committee on interstate and for-  
eign commerce, which deals with so  
many subjects of importance. The  
Georgia man is a conservative, and  
most of the Democrats are progres-  
sive.

Trouble Over an Auto.  
It is the experience of every person  
who has ever owned an automobile  
that they have trouble running it. The  
house of representatives is having trou-  
ble over an auto because no one runs  
it. Congress generously provided au-  
tomobiles for the vice president and  
the speaker. Sherman and Cannon op-  
erated the machines, but since the 4th  
of March there has been no speaker,  
and the house machine stands idle.  
Champ Clark will not use it, and so it  
is on the hands of the house, with no  
one to say what shall be done with it.  
The new speaker would rather have a  
span of mules than an automobile. It  
costs something like \$250 a month to  
keep the machine going. Champ isn't  
going to spend that for running about  
in an automobile even if the govern-  
ment does supply the machine.

Army of Unemployed.  
There has been an "army of unem-  
ployed" in Washington for several  
days. They belong to that large and  
increasing number of Democrats who  
want to get jobs in the new Democratic  
house. After the rolls are made up  
they will probably melt away. And in  
the meantime a new "army of unem-  
ployed" will be created. It will con-  
sist of the Republicans who have been  
holding down the house jobs for many  
years.

Not For Mrs. Sutherland.  
No "left to the farm" for Mrs. Suth-  
erland, wife of Senator Sutherland of  
Iowa. Professor Willis Moore, chief of  
the weather bureau, was one evening  
telling how he enjoyed his farm life,  
during the summer, and Senator Suth-  
erland remarked that such a life was  
just what was left him. "Well, you  
will go farming without me," remark-  
ed Mrs. Sutherland, and, turning to  
the group of friends, she said: "I spent  
my early days on the farm and know  
all about it. So Senator Sutherland was  
down on a farm in his life, and that is  
why it attracts him. I never heard  
of any one who really had to farm  
out for the first of it, but right down  
farming, who would ever want to re-  
turn to the farm, then they had once  
enjoyed it."

Not a Serious Matter.  
During the busy days of congress  
C. C. Newman, chief of New Jersey  
naval militia, called on for the naval  
militia. Newman's numbers expos-  
ture with the militia is without avail.  
"No one was frightened," said  
Newman, "but it is a precaution is not  
a deal. Nothing more important than  
the plan for the militia will be de-  
cided when these men go into action  
next summer."

ROCHESTER, N. Y.

Nancy A. Herrick, being duly sworn, deposes and says: When  
I was a girl, I had a head of heavy, long, dark brown hair which  
was the envy of my schoolmates, and which attracted the atten-  
tion and remarks of strangers. As I grew older, my hair com-  
menced to come out, just a little at first, but gradually more and  
more, and then began to turn gray. I was induced by the many  
good reports I had heard of Wyeth's Sage and Sulphur Hair  
Remedy to try a bottle. My hair was quite thin and gray when  
I began using Sage and Sulphur, and you can imagine my satis-  
faction when I found that it was fast coming back to its natural  
condition, being thicker, darker and more glossy than it had been  
for a long time. I continued to use Sage and Sulphur, and my  
hair is now as heavy, dark and smooth as when I was a girl of  
sixteen. It is now four years since I commenced using Sage and  
Sulphur, and my hair is still in splendid condition.

NEWARK. R. F. D. NO. 8. IRON TRADE REVIEW

Cleveland, O., March 26.—The  
Iron Trade Review today says: A  
very satisfactory operating schedule  
has been maintained by the mills  
throughout the month. Orders for  
rails and semi-finished steel, passed  
for entry on mill books, show a  
healthy gain over the first two  
months of this year, three Pittsburg  
steel companies having operated  
their semi-finished steel mills prac-  
tically full time since March first.  
Shipments of tin plate in March ex-  
ceeded those of any single month since  
August, 1910, while shipments of tin  
plate for the first quarter of this  
year show a big gain over the cor-  
responding period of 1913. Liberal  
specifications against contracts for  
April and May shipment have been  
received by independent tin plate  
manufacturers and the leading in-  
terest. The market on wire pro-  
ducts has also made a creditable  
showing this month, although some  
of the other lines have not been very  
active. While consumers have been  
specifying to the maximum stipu-  
lated in their contracts, they are  
giving little attention to future in-  
quirements, buying being limited to  
cover early needs.

Additional inquiries for cars have  
appeared and some awards likely  
will be made the latter part of this  
week. The Louisville and Nashville  
railroad is the market for 2,000 tons  
of car material to be used in the  
building of 500 cars at its own  
shops. Plans for two new buildings to  
be erected in Pittsburg, which  
will require upward of 14,000 tons  
of steel, will be announced in the  
very near future. The quotation of  
\$1.55, Pittsburg, on railroad spikes  
will be withdrawn March 31, which  
represents an advance of \$1 a ton.  
The iron market is quiet, but  
firm. The latest transaction of the  
week involves 10,000 tons of Besse-  
mer iron for delivery at Sharpshoot-  
ers, during the second quarter. The  
best grades of foundry coke for de-  
livery over the next twelve months  
can now be had at \$2.40, c. o. v. s.  
The week's work shows further  
weakness and lower prices on several  
grades are noted.

## OBITUARY

## MISS B. A. DURANT.

Miss B. A. Durant, aged 75 years, died at the home of her niece, Mrs. William Graves, 76 North Sixth street, at 3:30 o'clock Thursday morning. Miss Durant had been a resident of Danville, N. Y., but when her physicians told her the recovery of her health was impossible, she desired to come to the home of her niece, and Mrs. Graves brought her to her home about the first of March. Death resulted from a complication of diseases. Miss Durant has one sister residing in California and several nieces and nephews in this vicinity. The funeral services will be held at the Graves home in North Sixth street Saturday afternoon, Rev. T. A. Cosgrove officiating. Interment in Maple Grove cemetery, Granville.

## MRS. MARGARET HALL.

Mrs. Margaret Hall died at her home east of Bladenburg, March 25, at the age of 72 years. Her death was sudden and unexpected. When she retired Friday evening she was in usual health, her daughter awakening in the night realized that something was wrong. But she was already beyond suffering. She leaves to mourn her departure an aged husband, one son, three daughters, two step sons, one sister, two grand children, ten step grand children and a host of friends. The funeral was held at the Disciple Church here, Sunday.

It is sad that one we cherish, should be taken from our home. But the joys that do not perish, live in memory alone.

All the years we've spent together, All the happy golden hours, Shall be cherished in remembrance, Fragrant sweet from memory's flowers.

## CARD OF THANKS.

We desire to thank our kind friends and neighbors who so kindly assisted us during the sickness and death of our darling Wilma; also Rev. Dillin for his comforting words, and the many beautiful floral offerings. Mr. and Mrs. Charles Varner.

## CARD OF THANKS.

Mr. and Mrs. Westley Fishbaugh delightfully entertained with a supper Wednesday for Mr. and Mrs. Rev. Edwin Johnson and daughter, Dorothy.

Miss Maude Jacobs entertained as her guest the former part of the week Miss Hazel Leah Thompson of Fletcher Chapel.

## SAGE FOR DARKENING THE HAIR.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of sage leaves and applied it to their hair with wonderful beneficial effect. Nowadays we don't have to resort to the old-time, time-consuming method of gathering the herbs and making them better than we could do it ourselves, and all we have to do is to call for the ready made product, Wreth's Sage and Sulphur, containing sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy. This preparation is sold by first-class druggists for 50c. and \$1.00 a bottle, or is sent direct by the Wreth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price.

For sale and recommended by F. D. Hall, druggist.

Shirts in the new stripes, figures and plain colors, are unusually attractive. You will find it a pleasure to make your selections from these. Roe Emerson, corner Third and Main.

## DRIVING A COLD OR THE GRIPPE FROM SYSTEM

You can surely end Grippe and break up the most severe cold either in head, chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

It promptly relieves the most miserable neuralgia pains, headache, dizziness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges.

Take this harmless Compound as directed, without interference with your usual duties and with the knowledge that there is no other medicine anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

## MEN GIVE SUPPER FOR THE BOYS

One of the most interesting gatherings lately was a supper given last Tuesday evening by the men of the First Presbyterian church to the boys of the church.

The plan was for each man to pay for his supper and that of a boy and to bring the boy with him. This was carried out very nicely, and at 7:45 112 men, young men and boys sat down to one of those delicious chicken pie suppers which was spread upon three large tables.

Immediately following the supper and while still seated at the table, Mr. T. B. Fulton, acting as toastmaster, called for a few words of welcome by the pastor, Rev. F. E. Vernon, who responded in a few well chosen words.

Following this was a short address by Prof. C. L. Williams of Granville, whose theme was that men should feel the weight of responsibility before they can accomplish much in the way of work for the Master.

The next on the program was the one whom the boys all live, Rev. Jos. A. Bennett, who spoke at length to the boys along the line of service as to whom they should serve and how they should serve. The meeting closed by singing and benediction by the pastor.

## GRANVILLE GAS CASE IS ARGUED

Circuit Court Will Probably Announce Decision Friday—News of the Licking Temple of Justice.

In the circuit court Thursday the following cases were argued and submitted:

The Village of Granville vs. Crawford Natural Gas & Fuel Co. The petition alleges the passage of an ordinance in 1895 whereby a franchise was granted to the defendant company embracing rights and privileges as to the laying of gas mains and pipes through the streets in the village of Granville. Plaintiff alleges that the defendant agreed to supply the village and its inhabitants with gas at 25 cents per thousand. Plaintiff says that this contractual relation was made for ten years under the statutes providing for such matters. That on June 2, 1905, council duly and legally passed an ordinance fixing the price which the company should have the right to charge for gas, at 15 cents per thousand cubic feet for ten years, and providing that consumers should have the option to take by meter or flat rates, and providing the price beyond which the company would have no right to charge.

The answer says that the gas company had no knowledge of the passage of the ordinance, and denies the same, and demands proof. Plaintiff says that the gas company was duly notified of the passage of the ordinance. The question of the right of the village to pass the ordinance is made, the gas company claiming that the village had no right to pass an ordinance and bind the gas company without the acceptance by the gas company of the provisions of the ordinance.

The Village of Granville relies upon section 3982 of the revised statutes of the state of Ohio which reads as follows:

"The council of a municipality in which electric lighting companies, natural or artificial gas companies, gas light or coke companies, or companies for supplying water for public or private consumption, are established, into which their mains, pipes or conduits are conducted, may regulate from time to time the price which such companies may charge for electric light, or for gas for lighting or fuel purposes, or for water for public or private consumption, furnished by such companies to the citizens, public grounds, and buildings, streets, lanes, alleys, avenues, wharves and landing places or for fire protection. Such companies shall in no event charge more for electric light, natural or artificial gas, or water, furnished to such corporation or individuals than the price specified by ordinance of council. The council may regulate and fix the price which such companies shall charge for the rent of their meters."

The case was submitted to the court on a demurrer to the answer. A decision will probably be announced Friday.

Peter Katsampos vs. Eli Hull, a suit brought to recover damages for injury to a stock of goods in the Sparta confectionery during the erection of the Hull building on the west side of the square in this city. This confectionery was at that time located next to the Hull building, and Katsampos claims that Hull did not use care in removing the south wall of the building.

Transcripts Filed. A transcript from the criminal docket of Mayor Ankels in the case

of the State of Ohio against James Marlowe, a Zanesville man, charged with murder in the first degree in connection with the lynching of Carl Etherington, has been filed with the clerk of the court.

A transcript from the criminal docket of this court in the case of the State of Ohio against Frank Russell, charged with making an assault and battery on Emma B. Johnson, has also been filed.

The case of Montella Watha, which was carried to the circuit court on error by Attorney C. L. Flory, attorney for the defendant, is being argued to that court today, and decision will be handed down later.

Receiver Appointed. On a petition filed in the common pleas court by Mrs. Margaret Browne, widow of the late James M. Browne, the court appointed Daniel Altshool as receiver for the James M. Browne Sons grocery firm. Mr. Altshool gave bond in the sum of the sum of \$8000 and at once entered upon the discharge of his duties.

Bound Over to Court. Abner Caine of Eden township was arrested on affidavit of Edward Richards of Perry township, on a peace warrant. He was brought in by Constable Ross Wednesday afternoon and taken before Justice Horton. He waived examination and was bound over to common pleas court in the sum of \$200.

## Climate Failed—Medicine Cured.

It has been abundantly shown that rest, fresh air, and good food, do help many persons suffering from chronic diseases. But, to be really honest, it must be admitted that the disease is seldom more than "arrested." Something more is needed.

Eckman's Alternative is a medicine made for the cure of Tuberculosis. It has cured this disease again and again. Often these cures have been effected where the surroundings were not ideal, where no intelligent care was taken of the patient, where money was scarce, good food and good cooking unusual—yet cures resulted. Now we argue and urge that Eckman's Alternative should be used in every case of Tuberculosis in addition to good nourishing food, and fresh air, which we all need.

The facts—the evidence of cures that have been made—are interesting reading. A remarkable case follows—Weldon, Ill. Gentlemen: Through Eckman's Alternative I have been saved from a premature grave, and feeling that I must benefit suffering humanity, I take pleasure in writing you a brief history of my sickness, which you are at liberty to use.

On December 1st, 1904, I was taken with a violent pneumonia. My chest became very much swollen, my pulse became very rapid, and I was unable to breathe. I was confined to my bed for two weeks, my physician informing me that nothing could be done, as my case was hopeless.

My doctor, Dr. W. H. Loughlin, of Martinsburg, Pa., having given me no assurance of reaching there alive, I began taking Eckman's wonderful remedy for Consumption, it being very highly recommended. To-day I weigh 135 pounds, am as strong and well and can do any kind of work about my grain elevator. I have not an ache nor pain in my lungs, and I am able to walk and run as well as I would be glad if every person afflicted with Tuberculosis took Eckman's cure.

A transcript from the criminal docket of this court in the case of the State of Ohio against Frank Russell, charged with making an assault and battery on Emma B. Johnson, has also been filed.

The case of Montella Watha, which was carried to the circuit court on error by Attorney C. L. Flory, attorney for the defendant, is being argued to that court today, and decision will be handed down later.

Receiver Appointed. On a petition filed in the common pleas court by Mrs. Margaret Browne, widow of the late James M. Browne, the court appointed Daniel Altshool as receiver for the James M. Browne Sons grocery firm. Mr. Altshool gave bond in the sum of the sum of \$8000 and at once entered upon the discharge of his duties.

## Dinner Stories

A sportsman of great imagination, gifts, and fond of telling his exploits, related that at one point he had brought down two partridges and a hare. His explanation was that, although he had only hit one partridge, the bird, in falling, had clutched at another partridge and brought that to earth entangled in its claws.

"But how about the hare?" he was asked.

"Oh," was the calm reply, "my gun clicked and knocked me backwards, and I fell on the hare as it ran past!"

## Daddy's Bedtime Story

How There Came To Be Frogs

LONG ago when the world was young daddies told this story to their children, and I suppose they will continue doing so as long as the world lasts.

That was the way the daddy of Jack and Evelyn began his story for them one evening.

"It is the story of the way in which there came to be frogs on this earth," he went on. "Once upon a time there was a young mother. Her name was Latona, and she had two babies, a boy and a girl. They were beautiful little children, and their mother loved them very dearly. Now, in the country in which Latona lived with her babies there was a queen named Juno. People used to say that Juno was a great queen, but that Latona was more beautiful than the queen, so Juno became jealous of Latona and decided to drive her away from her country. The poor young mother had to take her two babies and flee from Juno lest the queen do her an injury.

"The poor Latona had to go a long distance to get out of the reach of Queen Juno. It was hot weather, and she did not dare stop to give her poor little children anything to eat or drink. Besides, there was no place to rest until she reached the shores of a beautiful lake with clear, cool water, shaded by trees and bushes. 'I will stop here,' said Latona.

"But by the side of the lake there were some bad boys cutting sticks. They were dressed in green coats and white shirts. They were cruel boys, and they would not let poor Latona and her babies rest. Whenever she tried to get near the water they drove her away with the sticks.

"She said to the boys: 'See my poor little babies. They are so thirsty, and I am so tired carrying them. Will you not let us have some of the water and let us rest in the grass?'

"But the bad boys only stirred up the water with their sticks so that it became muddy and unfit to drink and said:

"Now come and drink! Now come and drink!"

"Then poor Latona did not know what to do, for she felt that she could not go any farther. She laid down her babies and stretched her hands to heaven, praying for help. The boys saw her do this and mocked her more until a strange thing happened. They all became silent, and when Latona looked down she saw that for their cruelty to her they had been changed into frogs. They could not talk. All they could do was to croak and say something which sounds to some people like 'Come and drink! Come and drink!' And now all the frogs wear white vests and green coats and live in the mud."

Don't Hide Them With a Veil—Remove Them With the New Drug.

An eminent skin specialist recently discovered a new drug, othine—double strength, which is so uniformly successful in removing freckles and giving a clear, beautiful complexion that it is sold by W. A. Erman & Son under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first night's use will show a wonderful improvement, some of the lighter freckles vanishing entirely. It is absolutely harmless, and cannot injure the most tender skin.

Be sure to ask W. A. Erman & Son for the double strength othine; it is this that is sold on the money back guarantee.

### PIMPLES OFF IN 5 DAYS

The New Calcium Sulphide Treatment Does Wonders to Every Kind of Skin Eruption.

Trials Package Sent Free to Prove It.

You don't want to wait forever and a day to get rid of your pimples or other skin eruptions. You want to get rid of them right now. Next week you may want to go somewhere where you wouldn't like to have to take the pimples along.

You can get rid of them just in time by taking Stuart's Calcium Waters.

These wonderful little workers have cured bad boils in three days, and some of the worst cases of skin disease in a week.

They contain as their main ingredient the most thorough, quick and effective blood cleaner known, calcium sulphide.

Remember this, too, that most pimple treatments reek with poison. And they are miserably slow besides.

Stuart's Calcium Waters have not a particle of poison in them. They are free from mercury, biting drugs or venomous opiates. This is absolutely guaranteed. They cannot do any harm, but they always do good—good that you can see in the mirror before your own eyes a few days after.

Don't be any longer humiliated by having a splotchy face. Don't have strangers stare at you, or allow your friends to be ashamed of you because of your face.

Your Blood makes you what you are. The men and women who forge ahead are those with pure blood and pure faces.

Stuart's Calcium Waters will make you happy because your face will be a welcome sight not only to yourself when you look into the glass, but to everybody else who knows you and talks with you.

We want to prove to you that Stuart's Calcium Waters are beyond doubt the best and quickest blood and skin purifier in the world—so we will send you a free sample as soon as we get your name and address. Send for it today, and then when you have tried the sample you will not rest contented until you have bought a 50c box at your druggist.

Send us your name and address today and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 175 Stuart Bldg., Marshall, Mich.

**You Will Be Proud of the appearance of your stove**

**Black Silk Stove Polish**

It makes old stoves look like new and lasts four times as long as any other shine. Don't imagine all brands of stove polish are alike. Black Silk is different. It's so much better than other stove polishes that there is absolutely no comparison. It's in a class all by itself.

It makes a brilliant, glossy shine that anneals to the iron—don't rub or dust off. Give it a trial. Try it on your perfect stove—your cook stove or your gas range. If you do not find it the best stove polish you ever used, your dealer is authorized to refund your money.

Here is what some of the ladies write us:

"I have Black Silk Stove Polish better than any I have ever used. People say, 'where did you get your new stove,' and I tell them it's Black Silk Stove Polish that makes it look like new."

"I will not use any other kind when I can get Black Silk Stove Polish. It makes my stove look new and stay nice longer than any other polish."

"Black Silk Stove Polish is by far the best I ever used. I have tried many different kinds but find none as good."

"Like Black Silk Stove Polish better than any I ever used. Several parties in this neighborhood are anxious to get some of your polish since they saw my stove after using it."

Ask your hardware and stove dealer for Black Silk Stove Polish and refuse a counterfeit brand. Costs you no more than the ordinary kind so why not have the best?

**FLAG**

**COVERED THE BODY OF OLD VETERAN WHO PLANNED HIS DEATH.**

Selected Chas. Donned Captain's Uniform and Sunflower Dose of Morphine.

Benton Harbor, Mich., March 30. The body of Oregon Richmond, aged 72, a retired physician and a Civil War captain, was found on a couch in his home, dressed in his best uniform, covered with an American flag and under the picture of a battle in which he won his shoulder straps a half century ago. By his side was the saber he had carried in that conflict.

Letters told how he had prepared for death, and had taken just enough morphine to prove fatal without physical discomfort.

The decedent left a telegram to be sent to his widow and daughter in Dakota. It told them to come to his funeral.

Last Friday Richmond visited an undertaker and picked out a coffin for himself. On Saturday he paid farewell calls to G. A. R. comrades telling them he felt that he would live only a few days. For the coroner he left a note telling what verdict to render. For his widow he left a note saying:

"Leave the flag and sword where they are, and as I am lowered into the grave, let them be lifted from my body and presented to my son."

## SECURING RIGHT OF WAY FOR ROAD

General Manager W. A. Gibbs of the Midland Power and Traction Co., who was formerly manager of the Ohio Electric in Newark, is still actively engaged in the railway business. The Cambridge Jeffersonian says:

"General Manager W. A. Gibbs of the Midland Power and Traction Co., and M. L. Spaid, who has been securing the rights of way for the proposed extension from Byesville to Pleasant City, went over the route of the proposed extension Monday. Mr. Spaid stated Tuesday morning that he had succeeded in securing all rights of way with the exception of one property and thought that this would be closed in a few days. It is supposed that the actual work of construction will be taken up just as soon as the weather will permit."

## WHAT THE APRIL WOMAN'S HOME COMPANION CONTAINS.

The April number of Woman's Home Companion is brimful, pressed down and overflowing with the spirit of Easter. It is a riot of joyousness of little Easter frocks, of new spring hats, of gardens, music, verse and entertaining fiction. But underneath the sparkle and lightness of the surface attractions of this magazine lies the splendid bed-rock of all its helpful departments and strong special articles.

The fiction in the April Woman's Home Companion includes the second part of "The Flight of the Magic Carpet," a charming story of love and adventure and a motor car, by C. N. and A. M. Williamson; "Mrs. Benson's Brains," by Anne Warner, a homely little tale of a mother who thought she had very little "brains" but proved the contrary; other contributors are Mary Heaton Vorse, Maude Radford Warren, Grace M. Sissons and Louise Forsslund.

An Easter Sermon by Dr. Charles E. Jefferson, pastor of the Broadway Tabernacle, New York city, is one of the features of the April Woman's Home Companion. This number also contains an Easter hymn by Richard Le Gallienne, illustrated by Earl Stetson Crawford, and an article on equal suffrage, "Why I Want the Ballot." Time was when a man scorned to read a woman's magazine. That time is long past and the "man of the house" will be keenly interested in Mr. John D. Adams' article on "Furniture Making," which includes a design, with working drawings, of a comfortable porch swing.

Spring house-cleaning and general overhauling will lose its terrors for the young housekeeper if she will read and put into practice the "First Principles" of this important subject compiled by Mrs. Christine Ternum Herriek. It is possible to enjoy the "comforts of home" even though the awful hour of stock-taking and renovation is at hand, we are told in the April Woman's Home Companion. Little gardens and big gardens, flower and vegetable gardens—they all have a corner in this splendid Easter number.

Mr. and Mrs. C. E. Van Voorhis and Mr. John Toothman called on the former's son, Mr. Charlie Van Voorhis, Sunday.

Mr. and Mrs. Art Hamilton and Miss Stella Edgington spent from Friday until Sunday with Mr. and Mrs. James Buchanan.

**AMUSEMENTS**

**"MADAME SHERRY."**  
Ernest Albert, whose painting of beautiful stage effects has won for him rare esteem from the critics of the theatre, is said to have surpassed himself in the three scenes that distinguished the New York New Amsterdam Theatre company's equipment for "Madame Sherry" the musical sensation announced for performances here on Thursday, matinee and night, at the Auditorium theatre, March 30.

**"THE SPENDTHRIFT."**  
"The Spendthrift" the latest Porter Emerson Browne play, which is coming here, is brim full of tears and thrills. Many comments have been made everywhere, this play has been given about the ushers bling out at the end of the performance with red and swollen eyes. Hardened as they are to touching scenes upon the stage, they cannot help but respond to the tender lines of this play, and as one of them said at the Chicago opera house, "We have gotten into the habit of crying and it's hard to get out of it."

"The Spendthrift" will be seen at the Auditorium theatre Saturday April 1, for two performances only.

**"MADAME X."**  
"The drama that thrilled all Paris" is the way "Madame X" is spoken of, and this is literally true, just as it is literally true that "Madame X" has thrilled and moved to tears all New York. "Madame X" is an adaptation from the famous French success, "La Femme X," by Alexander Bisson, the marvelous piece of dramatic craftsmanship that created such a furore last year in the French capital, and then over night became the sensation of the American stage. Henry W. Savage is the manager fortunate and keen-sighted enough to secure this triumph for America. With a splendid company and a production exactly like that which has been used in New York, "Madame X" will come to this city for one performance on Friday April 7.

**"GIRLS."**  
"Girls," Clyde Fitch's greatest comedy, which comes in its original form as was played one whole year at Daly's theatre, New York city, to the Auditorium theatre for one performance only, will surely command the attention of local theatre-goers from now until the day of the performance. "Girls" is a comedy of the new school, noted for its strikingly original lines and situations, and staged with a view to realism that has never been equalled.

**"THE NEWLYWEDS AND THEIR BABY."**  
The big musical success of the past two seasons, known as "The Newlyweds and Their Baby," something entirely new, however, in the field of musical comedy, is an early booking at the Auditorium.

**WORLD-WIDE VIEWS IN NATURAL COLORS.**  
Animated scenes of world-wide scope presented in all the delicate colors of nature is the pleasing prospect for patrons of the Auditorium theatre soon when Lyman H. Howe will present his new program. Views that are all aglow with the colors that are all aglow with the colors that conjure up new visitations of beauty and wonderment when Lyman H. Howe is the exhibitor.

**"THE MERRY WIDOW."**  
The most widely advertised musical number in the "Merry Widow" which comes to the Auditorium on an early date, is the languorous waltz introduced midway in the score and skillfully repeated at intervals until it is "sprung" to accompany a dance between the widow and Prince Danilo in the second act. The scene is the Marsovia fête at the widow's garden party in Paris, picturesquely dressed and stage directed. After all the corymbes have faded, and the widow and the Prince of Marsovia are left alone and to the accompaniment of many violins, proceeded to epitomize the seductive possibilities of the waltz as it is danced in the country where the waltz king lived.

**Orpheum.**  
Another good show opened at the Arcade theatre today for the balance of the week. The special feature is Walter H. Bedell in a rural dramatic sketch, "Uncle David," one of the best sketches ever presented here. Mr. Bedell is a real actor supported by Wm. Desmond, Adelaide Roberts and Gertrude Heron. The Four Sullivan Bros., a quartet of singers and dancers, and DeVoe and the Dayton Sisters in a comedy, singing and dancing specialties are added attractions. Milton Arnsman, the comedian, will please in songs and funny sayings.

**A Good Finish For Any Home**

Truthfully said of 'Spartan Stain. A spring ballad might be written on its achievements in beauty and hygiene. For it both beautifies and disinfects. Also it preserves floors, doors, woodwork, furniture.

But ballads to those who write them; ours for the practical. If we could write verse as we make stains, varnishes and paints, Shakespeare would have to take a lower shelf.

We make wood finishes and paints so well because we don't attempt anything else.

Spartan Stain is one of our many wood finish products. Ready mixed; apply it as you buy it or hand it to your painter. He will like it because it is practical—made by men of long experience.

anticipatory delight, and the matter of mentioning the name of the play in which the two favorite comedians will appear is one of secondary importance. In the cast of their forthcoming engagement at the Southern theatre Tuesday and Wednesday, April 4 and 5, however, Montgomery and Stone insist upon the fact that George Ade and Gustav Ludes have given them an exceptionally good vehicle in "The Old Town," and that in the characters of Archibald Hawkins and Henry Clay Baxter, they are afforded opportunity for the introduction of much that is novel in singing, dancing and acrobatic incidents. Charles Dillingham, who produced "The Old Town," as is the habit, has given Montgomery and Stone an excellent supporting company, and accorded the stage investigations even more than his usual measure of fastidious opulence.

Crooks are fashionable theatrically. It may be argued that if recent successes, from Raffles and "Lean Kleschna," to "Alas Jimmy Valentine" and "Aisepo Lupin" plays that have gained popularity with one or two thieves each, a full cast of them would assure a triumph. "The Quality of Mercy," which will be at the Great Southern theatre Thursday and Friday, April 6 and 7, almost fills that requirement. Its big scene in the third act, even shows a thief stealing from a thief. "The Quality of Mercy" comes from an excellent New York engagement.

Cough and Cold Syrup Made at Home, Touches Spot.

A great big full pint of invative cough syrup of the finest quality known to the medical world can readily be made by any woman, or even child. To a pint of granulated sugar add a half pint of boiling water, stir and cool. Obtain at drug store 2 1/2 ozs. Esserice Menthol-Lavene, empty it into a pint bottle and fill up with the syrup. A tea-spoonful every hour or two will check or stop a cold in the head, and cure any cough that is curable. It will pay any family to keep it always in the home to avoid the discomforts of a cold, sore throat, influenza, or pneumonia. It is remarkably quick in its action and permanent too.

**NEW CORN CURE A REAL MARVEL**

Guaranteed and Absolutely Painless.

A corn cure that is painless and that will really do the work has finally been discovered. Heretofore, the poor sufferer from corns has been pestered with "drawing" salves and plasters that swell the corns, and has had finally to gouge out his corn and inflict upon himself still greater pain. With Hall's Painless Corn Cure all pain ceases on the first application, and then finally the corn comes right off easily and painlessly. You don't have to dig it out and run the risk of drawing blood, making your corns still more sore or getting blood poison.

Hall's Painless Corn Cure is easier to use than any other; it takes a few seconds to apply it. It is guaranteed absolutely in every case. You must be satisfied, or back goes your money.

Lasts longer than several packages of any other corn treatment, and you are sure to get rid of corns and bunions. Sold at 25 cents a bottle at

# You drink Coffee every morning—

it gives you the start for the day. It means a whole lot to have a just-right cup of coffee—the kind *you* like. It means so much it will pay you to go right into this advertisement and read the fine print.

Nothing is more true than the fact that *tastes differ*. Then isn't it strange that no other Coffee House has ever offered coffee in different Blends to suit the different Coffee tastes? We, being the largest and oldest house of coffee experts in the world, are in position to know what those Blends are that meet the tastes of the people in America. We have proved there are five great coffee tastes, and after a generation of experiment, we have put up the five Blends that meet the different

tastes of coffee drinkers. No other coffee house has had the experience, the facilities and the volume of business to make this possible.

Golden Sun Coffee is perfectly ripened, perfectly blended and perfectly packed coffee. No coffee could be more uniformly good, more ideally put up—in air-tight pound packets, hermetically sealed at the right moment after roasting, to preserve for your table all the rich, natural oil-foam of the coffee berry.

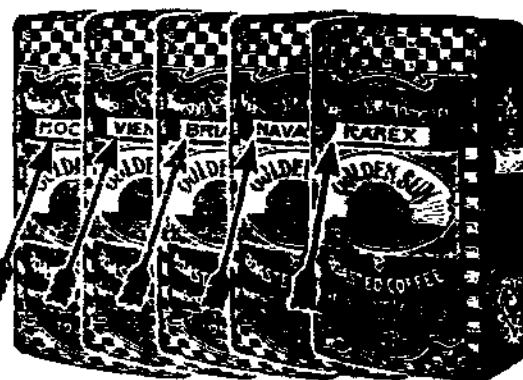

## Golden Sun Coffee

Five Different Blends—One to Suit Your Taste

Ask your grocer to see the five different packages of Golden Sun Coffee. He will also show you our Golden Sun Table of Tastes, so that you can readily select your particular Blend. You may find that you have been paying 10c to 20c a pound too much for the cup of coffee you like best.

**CAUTION:** Coffee sold by irresponsible peddlers, or kept in open bins, fails in richness, purity and strength, and gives you much less than you pay for, regardless of the price asked. Every experienced, conscientious grocer will tell you how true this statement is.

### DOES LIMING PAY IN THE PRACTICE?

Many farmers have expressed considerable doubt as to the efficacy of liming soils. It is true that all soils do not require lime but where the soil is acid lime is absolutely necessary and there are very few lands indeed which can not be benefited by its application. What are the effects of liming soils? To render available certain forms of plant food, especially compounds containing potassium; to furnish needed plant food; to neutralize acidity; to promote the decomposition of organic matter by encouraging the growth and activity of micro-organisms; to promote the growth of organisms that gather nitrogen from the air and to improve the physical texture of the soil.

The Virginia experiment station recently conducted some tests at its truck experiment station at Norfolk where a considerable quantity of the soil is extremely deficient in lime. The plots used for the tests required from 3,500 to 6,300 pounds of lime per acre to neutralize the acidity of the soil to a depth of one foot. It was borne in mind, however, that some crops, like watermelons and peas, may be injured by the application of so much lime, while other crops, like spinach, can not thrive without it, and potatoes, although preferring a soil supplied with lime, are ruined by scab in an alkaline soil if the germs of that disease are present.

The use of 1,200 pounds of lime per acre applied broadcast shortly before the cabbage plants were set out, increased the yield 140 percent as compared with an adjacent plot similarly fertilized but not limed. Even more striking results were obtained from liming spinach. A plot receiving 1,600 pounds of commercial fertilizer and 1,000 pounds of lime yielded 3.6 times as much as a similar plot receiving 1,600 pounds of fertilizer only. Estimating the fertilizer at \$40 per ton and the lime at \$10 per ton, and the spinach to sell at \$1 per barrel, the increased income from the addition of 1,000 pounds of lime per acre to ground fertilized at the rate of 1,600 pounds per acre would be about \$60.

While peas limed at the rate of 2,000 pounds per acre showed a reduced yield of 31 percent, beans similarly limed gave an increase of 7 percent when compared with plots similarly fertilized but not limed. Cucumbers, like cabbage, spinach and potatoes, were benefited by liming. The yield on 15 plots was increased 35 percent by the addition of 2,000 pounds of lime per acre when compared to plots receiving an equal amount of fertilizer but not limed. On a potato plot unlimed but fertilized, 102 barrels were produced, while on a similar plot with the same application of fertilizer and an addition of 1,000 pounds of lime per acre, 132 barrels were yielded, an increase of almost 30 percent.

### LIBERALS

(Continued from Page 1.)

no question of special privilege connected with it.

The only question involved was whether the Rose law had minimized the evils flowing from intemperance. It had it should stand, and if not it should fall.

There was an element in the community that wanted saloons closed, but it did not care what happened after they were shut up. If drinking itself was good and saloons were bad, then there should be a way of providing for the sale of liquor without making hypocrites of men in dry territory.

The second speech against the bill came from Speaker Pro Tem. Price Russell of Wayne county, who carefully premised his remarks by saying that he was not a teetotaler. Because he bought a drink in a saloon did not mean that he was bound to support that saloon. The nickel closed the transaction.

The question presented was, what was the best policy and what was the will of the people of the state. The time he said was inopportune, because next year there would be a constitutional convention. If liquor is to be sold hereafter he would be for a license system as against the unbridled saloon, and he quoted examples to prove this assertion.

Russell was followed by Greaves of Cleveland, who charged that conditions had changed in the two and a half years of the Rose law's operation. It was not a party issue, but a question of whether the people were to continue to live under obnoxious laws. The Rose law was not only a dismal failure, but it was unfair.

Asserting that he had been misquoted in his remarks on the Dean bill, he repeated that the Democratic party platform had declared for home rule, and that the principle of the bill was a matter for home rule. He had said that that is declared for the Dean bill.

Saying that it was entirely proper that the present bill should come from Newark, he went on to denounce the detectives who figured in the tragedy as assassins who should not be permitted to come into the state.

Freiner of Vinton, attacked the haste with which the bill was being shoved through, saying the brewers were demanding it under the penalty

of holding up everything else the people wanted.

The Democrats were taunted with supporting special privilege, and he asked what Thomas Jefferson would think of his disciples in the House.

He made the prediction that, unless the legislature ceased to protect special interests and helped the people, the people would turn away from the Republican and Democratic parties and take up with Socialists. "And why not?" he demanded.

Crist of Delaware opposed the passage of the bill until the matter of high license could be thrashed out in the constitutional convention. He did not think much of the licensing system, but said it should have a trial at least. The bill pending was not a home rule proposition, but one in the interest of special privilege.

The debate was closed by Davidson of East Liverpool. He asserted that the question was not one of putting back saloons, but only of conferring the right upon the cities to say whether they should come back.

The Anti-Saloon League was twitted for opposing the Young bill giving trials to accused liquor sellers and for standing for the municipal and township unit in that matter.

The leaguers were afraid of the jury system, and any law that would not stand the test of a jury was on poor foundations. He denied, as an early Democrat, that that party had been kept under for 40 years by the whisky issue.

When he closed, the procrustean question was moved by arrangement by Black of Ashland, and the debate was shut off. After a call of the house the vote was taken and perfect quiet, was verified and then announced.

In an instant there was an uproar and the members went piling into the lobbies. A motion to recess for ten minutes was interposed, but at the end of that time not a sufficient number of members had come back to do business and the House was adjourned until Thursday.

The house labor committee will amend the Green senate bill to include mercantile establishments in the women's nine-hour day clause and report the bill for passage.

The senate today revived the Young uniform-text book bill, recently killed, and passed it on the calendar.

Adjutant General Wegbrecht was today officially notified that the Ohio National Guard officers who go to Texas have been sent transportation and must report at San Antonio on or between April 2 and 5, together or separately.

The Wyman bill, a duplicate of the Stockwell Oregon plan bill, will probably pass the house today.

The senate today passed the C-teno double fire platoon bill.

The committee appointed to draft a workman's compensation bill will ask for more time, with leave to report at any time.

Many a many dreams of what he would do if he had a million. As a matter of fact he would immediately start to get another.

### MAIL ORDER DISTILLERY

Cincinnati, March 20. — A new company is being organized in Cincinnati to operate the Germantown, Ohio, distillery, bought last week by Cincinnati interests following negotiations with the trustees of David Rohrer.

The concern will be known as the Mudlick Distilling company. M. Markstein will be president and M. Durner will be vice president.

It is intended to operate the plant to its full capacity as soon as it can be put in running order. Mr. Durner said last night the newcomers will maintain the standard of quality of the old distillery.

An entry for confirmation of the sale was introduced in the United States district court here Monday. The price paid for the distillery was \$82,500, and included 2,000 barrels of old whiskey in bond, half of which will be taken over by the Detrick Distilling company of Dayton, Ohio, and the remainder by Mr. Markstein of this city.

The United States bonded warehouses on the distillery premises contain an additional 5,000 barrels of whiskey. A plant for bottling in bond will be fitted up and most of this whiskey will be sold in bottles under the government stamp, on mail orders.

### THINKS BAILEY'S TOGA WOULD FIT

C. B. RANDELL

When Senator Bailey, of Texas, recently resigned from the Senate in a fit of anger and then withdrew the resignation, a number of Texans were ready to step into his shoes. Among them was Representative C. B. Randell of the Fourth Texas district. The question has been raised as to whether or not Senator Bailey could withdraw his resignation, so that Randell still has a chance to see his aspirations fulfilled.
